

# DIPLOMA MATTERS

## A Field Guide for College and Career Readiness

### Facilities Survey

In order to be considered a **lab facility**, it must be able to accommodate biology, chemistry or physics. A **station** is a table/island with a sink, that can accommodate at least 4 students.

In addition:

- Please forward descriptions of any facilities currently used for Career Tech programs for each high school. If the district uses a regional center, please provide that information or a contact person/information at the regional center from whom we can get this kind of information.

Provide their names/information here: \_\_\_\_\_
